* Comment. The construction of a second track on the Aue-Schwarzenberg-Johanngeorgenstadt line was previously reported in detail.

The present report refers only to the completion of the trackage on the 10-km stretch between Aue and Schwarzenberg. The installation of the signal and safety devices will probably require more time. The target date for the completion of the entire project is 31 December 1950.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
